* This net will change to 6:30 PM when Daylight Savings Time takes effect.

- Dakota Chapter 102 QCWA Net meets on Sundays at 8:00 AM on 3889 Khz.
- North Dakota Goose River Net meets on Sunday Mornings at 8:30 AM on 1895 Khz.
- The Fertilizer Net was active for many years on the lower part of 80 Meters but due to limited activity has been moved to 3935 Khz. This is a general monitoring frequency for hams to contact other hams and is not a formal net. Enjoy “Fertilizing the Airwaves!”
- The Pico Net lists there nets as 1st, 2nd (AM) and 3rd, 4th (PM) hour. They are on Monday thru Friday and only the 1st and 2nd hour on Saturdays but none on Sundays.
- We have added another place for area hams to meet and chat using the Internet. This is not a formal net but rather a time & place to meet. CQ-100 is a Amateur Communication Software, voice over IP for use on the Internet.
- The Hybrid Net (aka. Boat Anchor Net) where you can get on the air with the vintage stuff is after the 12:30 PM ND WX Net on Saturdays.
